I know, and I totally agree . . . that said, I know how overwhelmed this area is (I can explain, remind me) because of a project we didn't want and it has grown unbelievable with no staffing to support it. We are going to need to really sit down and figure this all out this year---but, we have money for immediate relief while we look at longer term solutions. We cannot always have \$1m supporting lead; we need GF because some of this is matachable.

Subject: Re: A New Position for MMMS

My only concern is whether MCH Block will be needed in future years to cover the position because that's where we might have issues someday when carryover goes down (likely starting this year, the LHDs won't have the kind of unspent funds they have had previously)...we have built in more ongoing positions then ever before....at some point that may catch up to us. Is Paulette asking for just one year of funding from MCH Block to cover it or will she always need this funding?

I'm only bringing it up because I've heard you say how important it is that we have flexible dollars with this funding...

Subject: A New Position for MMMS

Manal and I need to establish a position for a records coordinator to organize and help abstract the extensive necessary records for non-medical information to complete the MMMS program effort. There are a couple of places in the section where I will not have the personnel to complete previously MCH Block approved work and would like to use the funding from those projects to support this MMMS records coordinator position for two years as a MPHI Affiliate.

Brenda, Carrie and Beverly, this is my request:

May we use the funds allocated for MCH Block Grant Carryover originally designated for Hospital Nursery CON Review Nurse of \$55,000 and may be some of the NPM #3 projects funding of \$40,000. (Brenda FYI if we get more than four really good Breastfeeding proposals, I may come back to ask for a little of this funding to fund one or two more of the proposals (\$10-20K).

Brenda, this work is one of the department's contributions to the MI AIM project. We have a multi-year back log of cases along with the annual cases that must be prepped and abstracted for committee review and determination.

Bev, since we will not have to fund Real Alternatives – the Pregnancy and Parenting Support Program (\$50,000) out of Prenatal Care Outreach and Services Delivery Support Appropriations #14289 could this be a source to support this activity as well?

We are planning for this position to be an MPHI affiliate. I am talking with Stephanie Halfman, MPHI, on Monday about this potential position and another personnel issue.

Lucie: when is the next due date for amendment submission for master agreements? When could be the earliest contract effective date? That will help calculate just how much funding we will need for FY 17.

Thanks you all for the consideration of this request.

PLANNED ALLOCATIONS
(FY2016 Appropriation Act - Public Act 84 of 2015)

April 1, 2015

Sec. 1301. (1) Before April 1 of the current fiscal year, the department shall submit a report to the house and senate fiscal agencies and the state budget director on planned allocations from the amounts appropriated in part 1 for local MCH services, prenatal care outreach and service delivery support, family planning local agreements, and pregnancy prevention programs. Using applicable federal definitions, the report shall include information on all of the following:

(a) Funding allocations

(b) Actual number of women, children, and adolescents served and amounts expended for each group for the immediately preceding fiscal year.

(c) A breakdown of the expenditure of these funds between urban and rural communities.

(2) The department shall ensure that the distribution of funds through the programs described in subsection (1) takes into account the needs of rural communities.

(3) For the purposes of this section, "rural" means a county, city, village, or township with a population of 30,000 or less, including those entities if located within a metropolitan statistical area.

Michigan Department of
Health & Human Services

NICK LYON, DIRECTOR

PLANNED ALLOCATIONS

(FY 2015 Appropriation Act – Public Act 84 of 2015)

April 1, 2016

Sec.1301. (1) Before April 1 of the current fiscal year, the department shall submit a report to the house and senate fiscal agencies and the state budget director on planned allocations from the amounts appropriated in part 1 for local MCH services, prenatal care outreach and service delivery support, family planning local agreements, and pregnancy prevention programs. Using applicable federal definitions, the report shall include information on all of the following:

- (a) Funding allocations.
 - (b) Actual number of women, children, and adolescents served and amounts expended for each group for the immediately preceding fiscal year.
 - (c) A breakdown of the expenditure of these funds between urban and rural communities.
- (2) The department shall ensure that the distribution of funds through the programs described in subsection (1) takes into account the needs of rural communities.
- (3) For the purposes of this section, "rural" means a county, city, village, or township with a population of 30,000 or less, including those entities if located within a metropolitan statistical area.

Sec. 1307. From the funds appropriated in part 1 for prenatal care outreach and service deliver support, \$50,000.00 shall be allocated for a pregnancy and parenting support services program, which program must promote childbirth, alternatives to abortion, and grief counseling. The department shall establish a program with a qualified contractor that will contract with qualified service providers to provide free counseling, support, and referral services to eligible women during pregnancy through 12 months after birth. As appropriate, the goals for client outcomes shall include an increase in client support, an increase in childbirth choice, an increase in adoption knowledge, an improvement in

parenting skills, and improved reproductive health through abstinence education. The contractor of the program shall provide for program training, client educational material, program marketing, and annual service provider site monitoring. The department shall submit a report to the house and senate appropriations subcommittees on the department budget and the house and senate fiscal agencies by April 1 of the current fiscal year on the number of clients served.

Sec.1308. From the funds appropriated in part 1 for prenatal care outreach and service delivery support, not less than \$500,000.00 of funding shall be allocated for evidence-based programs to reduce infant mortality including nurse family partnership programs. The funds shall be used for enhanced support and education to nursing teams or other teams of qualified health professionals, client recruitment in areas designated as underserved for obstetrical and gynecological services and other high-need communities, strategic planning to expand and sustain programs, and marketing and communications of programs to raise awareness, engage stakeholders, and recruit nurses.

Sec. 1311. From the funds appropriated in part 1 for prenatal care outreach and service delivery support, equal consideration shall be given to all eligible evidence-based providers in all regions in contracting for rural health visitation services.

PLANNED ALLOCATIONS

(FY 2015 Appropriation Act – Public Act 84 of 2015)

April 1, 2016

Sec.1301. (1) Before April 1 of the current fiscal year, the department shall submit a report to the house and senate fiscal agencies and the state budget director on planned allocations from the amounts appropriated in part 1 for local MCH services, prenatal care outreach and service delivery support, family planning local agreements, and pregnancy prevention programs. Using applicable federal definitions, the report shall include information on all of the following:

- (a) Funding allocations.
 - (b) Actual number of women, children, and adolescents served and amounts expended for each group for the immediately preceding fiscal year.
 - (c) A breakdown of the expenditure of these funds between urban and rural communities.
- (2) The department shall ensure that the distribution of funds through the programs described in subsection (1) takes into account the needs of rural communities.
- (3) For the purposes of this section, "rural" means a county, city, village, or township with a population of 30,000 or less, including those entities if located within a metropolitan statistical area.

Sec. 1307. From the funds appropriated in part 1 for prenatal care outreach and service deliver support, \$50,000.00 shall be allocated for a pregnancy and parenting support services program, which program must promote childbirth, alternatives to abortion, and grief counseling. The department shall establish a program with a qualified contractor that will contract with qualified service providers to provide free counseling, support, and referral services to eligible women during pregnancy through 12 months after birth. As appropriate, the goals for client outcomes shall include an increase in client support, an increase in childbirth choice, an increase in adoption knowledge, an improvement in

parenting skills, and improved reproductive health through abstinence education. The contractor of the program shall provide for program training, client educational material, program marketing, and annual service provider site monitoring. The department shall submit a report to the house and senate appropriations subcommittees on the department budget and the house and senate fiscal agencies by April 1 of the current fiscal year on the number of clients served.

Sec.1308. From the funds appropriated in part 1 for prenatal care outreach and service delivery support, not less than \$500,000.00 of funding shall be allocated for evidence-based programs to reduce infant mortality including nurse family partnership programs. The funds shall be used for enhanced support and education to nursing teams or other teams of qualified health professionals, client recruitment in areas designated as underserved for obstetrical and gynecological services and other high-need communities, strategic planning to expand and sustain programs, and marketing and communications of programs to raise awareness, engage stakeholders, and recruit nurses.

Sec. 1311. From the funds appropriated in part 1 for prenatal care outreach and service delivery support, equal consideration shall be given to all eligible evidence-based providers in all regions in contracting for rural health visitation services.

Subject: Fwd: Real Alternatives

Jen,

Do you know who I would talk to about Real Alternatives, which is a program contracted for on the health side of the agency to prevent out-of-wedlock pregnancies?

The reporter initially asked about TANF funding and that started asking about Real Alternatives funding. Susan Kangas from Finance/Budget has provided me with some info, but I need to confirm some info.

Thanks,
Bob

Subject: RE: Real Alternatives

Attached is the current contract for \$1.5M. \$700,000 from FY 14 and \$800,000 from FY 15 (all GF/GP) This was a legislative initiative that they proposed funding with TANF but SBO said "no" so it ended up being GF. There is also \$50,000 of GF in the FY 16 budget that has not yet been added to a contract. The spending has been very slow. As of a Financial status report dated November 30, 2015, less than \$615,000 of the \$1.5M has been spent.

Subject: RE: Real Alternatives

I remember now! They're out of Pennsylvania. SBO called one year to ask me if their services were TANF eligible. They are, but it was never funded with TANF. I would still like to know if there is a contract, the dollar value, and how it's fund sourced please.

Subject: RE: Boilerplate Question, Section 1307

I am proposing to forward your e-mail along with the following information to Farah and Susan to see if this needs to go through Tim and Karla before I respond to the State Budget office:

Farah and Susan – Dean from SBO sent us the attached e-mail regarding the above boilerplate related to Real Alternatives. Apparently this funding was provided through a group of legislators and there wasn't strong support from the Department, but due to trying to pass the Medicaid waiver and other issues at the time, we agreed to the funding and to support the activities. The company is based out of Pennsylvania and they subcontract with primarily Catholic and other religious conservative organizations here in Michigan. The vendor did not want to agree with the Department's regulations on reporting requirements and expenditure reimbursement, but eventually agreed in order to get the funding. It has taken a long time to get this up and running and there is still a lot of funding available per Brenda's e-mail below. In FY17 we are requesting to delete the boilerplate requirement and SBO wants to know why we aren't reducing the \$50,000 that will be appropriated. The program would prefer to end this contract and not provide the \$50,000. Instead there is a potential decrease in federal funding in the Home Visitation Grant or the funding could be used for the Infant Mortalities' 9 key strategies. I can provide the information provided by Brenda, but I'm

wondering if we need to get Tim's and possibly Karla's input on how it will be received by the legislators if we redirect the \$50,000.

Subject: Boilerplate Question, Section 1307

Cindy, below is the response from staff . . . I do want to talk with you about this as the context for this is important to understand. I'm sorry I didn't catch you early Friday morning---and hope you had at least most of the day off! I'm working at my desk all morning, so just give me a call when it's convenient. If I don't answer, I'll just have stepped away from my desk and should be able to call you back promptly. Bev, is the \$50k added for this contract additional to our "usual" amount in this line, or is it an add-on for this fiscal year? Would you please explain where this money was located in the '14, '15 budgets and the carryover piece so folks who are new this funding know. This whole thing has been handled a little differently than the usual from day one. Thanks!

This project has been jointly managed by Family and Community Health and Contracts, first with Kristi Broessel and now with Jeanette Hensler. Jeanette has reviewed this response and from Contracts' perspective is ok with the information included.

The Real Alternatives Program is the contracted provider for the Michigan Pregnancy and Parenting Support Services Program. The program was allocated \$700,000 for Fiscal Year 2014, to provide services to promote childbirth as an alternative to abortion by providing free pregnancy test counseling, abstinence education and counseling and referral services to pregnant and parenting women. Due to a slow start up, the program was significantly underspent. As a result the FY 14 contract was extended to allow for expenditure of the funding. The program was allocated another \$800,000 for Fiscal Year 2015. The current, multi-year contract has been extended again covering the period 10/1/13 – 9/30/16 for the total amount of \$1,500,000 (\$700,000 FY14 and \$800,000 FY15). The program was allocated \$50,000 for FY 2016. We have not yet amended the contract to add in these funds.

Reported by Budget, as of September 2015, \$554,922 of the \$1.5 million has been expended, leaving an agreement balance of \$945,077.21. This does not include the additional \$50,000 FY 2016 allocation.

As of September 2015, Real Alternatives has subcontracted with five agencies and is providing services through 17 provider sites. The program reported that they have served a total of 1,782 clients, 567 served in the last quarter of FY2015. Of these women served, 1,127 were pregnant. If the program expenditure requirement is removed from the MDHHS boilerplate for FY 2017, we will not continue the contract.

As for these final questions in the request: *Does that mean a reduction of \$50,000 in the Prenatal Care Outreach line item? Why wasn't that included as a reduction proposal?* We in program aren't really able to respond that question.

Subject: FW: Boilerplate Question - Section 1307

Hi Brenda – The State Budget Office (SBO)) is asking for information on an update on prenatal care outreach and service delivery support. They are referencing the FY16 boilerplate which looks like it is duplicative of Section 1136 in the FY15 budget bill with the exception of the amount of funding. Can you please provide me with responses to SBO's questions listed below?

Cindy Masterson
Health Services Budget Division Director
Michigan Department of Health and Human Services
Office 517-241-2409
Fax 517-241-4845

From: Kimmith, Dean (DTMB)
Sent: Tuesday, December 08, 2015 8:57 AM
To: Masterson, Cindy (DHHS)
Cc: Kangas, Susan (DHHS); Hanley, Farah (DHHS)
Subject: Boilerplate Question - Section 1307

Sec. 1307. From the funds appropriated in part 1 for prenatal care outreach and service delivery support, \$50,000.00 shall be allocated for a pregnancy and parenting support services program, which program must promote childbirth, alternatives to abortion, and grief counseling. The department shall establish a program with a qualified contractor that will contract with qualified service providers to provide free counseling, support, and referral services to eligible women during pregnancy through 12 months after birth. As appropriate, the goals for client outcomes shall include an increase in client support, an increase in childbirth choice, an increase in adoption knowledge, an improvement in parenting skills, and improved reproductive health through abstinence education. The contractor of the program shall provide for program training, client educational material, program marketing, and annual service provider site monitoring. The department shall submit a report to the house and senate appropriations subcommittees on the department budget and the house and senate fiscal agencies by April 1 of the current fiscal year on the number of clients served.

We need a brief update on the status of the Real Alternatives program. What did they spend in FY 15 of the \$800,000 allocated to them?

DHHS has proposed eliminating Section 1307 for FY 17. We assume this means you will not contract with them in FY 17.

Does that mean a reduction of \$50,000 in the Prenatal Care Outreach line item? Why wasn't that included as a reduction proposal?
